Mobile telecommunication equipment (mobile phones, laptops, cordless telephones, baby listening devices, radio equipment) emits high frequency electromagnetic waves. Studies have shown that these high frequency waves can cause health issues such as headaches, fatigue, irritability, stress, nausea and sweating.

Safer Call®, a new technological innovation made in Germany, can help mitigate these harmful effects. SaferCall is

tested by health-professionals and physicists and the studies were commented accordingly. It comes in the form of a convenient sticker, which you can simply paste onto your mobile phone, laptop or other devices. Tests have also shown its efficacy to last for two years or more.

Safer Call® is also available at: GlowLife NaturalHealthFood (T: 6225 6343), NaturopathicHealthCARE and Boston@Billmann.
